## LEARNING

# Language in Action Methodology

**At Language in Action, the focus is on student interaction and authentic communication incorporating British culture combined with Trinity College GESE exam preparation together with a stimulating and varied activity programme.**

All our teachers are TEFL-trained and receive specialised professional development designed towards teaching young learners on short-term summer courses.

Our carefully developed teaching programmes are specifically aimed at improving spoken communication. While we are proud of the excellent quality of our standard courses, we are also happy to adjust them to ensure your students get the experience that best suits their needs. Language in Action's course materials are carefully selected and specifically aimed at young learners aged between 12 and 17 on short-term EFL courses, focussing on developing and improving speaking and listening skills. The lessons include topic-based coursebook units, discussions and exercises, pronunciation, British culture, vocabulary building, learner training, grammar, language games and interactive, student-centred activities.

At Language in Action, we believe that achieving a Trinity College GESE exam is a unique opportunity for students to return home with an exam qualification as well as having a positive and enjoyable summer school experience.

## LEARNING

# Our teachers and activity leaders

**Our teachers and activity leaders are an essential part of our courses and are the glue that holds the entire experience together.**

Students will receive support throughout the course and will be accompanied on excursions and social activities so that we can be on hand to enable the students to get the most out of their experience linguistically and in general.

Our courses for school groups follow a specific syllabus and include course materials so that the students benefit from structured learning and we can maintain a high quality of teaching.

**VARIED PROGRAMME**

# Study holiday courses for school groups

**We offer an activity and excursion programme which is focussed on London or Brighton.**

Students will be taught the necessary language in the class before their excursions so that they have the chance to explore everything the UK's top cities have to offer and to interact with other international students and with native English speakers during our activity and social programmes as they explore the local environment.

Students won't simply go shopping but rather be encouraged to use key English structures learnt in class to negotiate a better price and to communicate what they need in English to the sales assistant so that they can build confidence. All activities and excursions are linked to the class syllabus but at the same time are light and engaging.
